

# ilico 4K ULTRA HD

CRYSTAL CLEAR UHD PICTURE QUALITY

UNRIVALLED PERFORMANCE

8 SIMULTANEOUS HD RECORDINGS

## ATTENTION: DOES YOUR TV SUPPORT HDCP 2.2 COPY PROTECTION?

Some older TV models do not support this new generation of copyright protection, thus making it impossible to watch content in Ultra HD.

### WHAT IS HDCP 2.2 COPY PROTECTION?

HDCP 2.2 copy protection is the industry standard for preventing the unauthorized reproduction of content. This standard was enforced as a result of content producers' demands and was not yet implemented when Ultra HD TVs were initially produced. To enjoy Ultra HD content, your TV must be compatible with this new industry standard.

### WHAT HAPPENS IF MY TV IS NOT COMPATIBLE WITH HDCP 2.2 COPY PROTECTION?

If you attempt to watch Ultra HD content on a TV that is not HDCP 2.2-compatible, a message will appear advising you of the device's incompatibility. These TVs, however, can still display 1080p HD images without a problem.

### IS MY TV COMPATIBLE WITH HDCP 2.2 STANDARDS?

Most 2015 models support this new industry standard. To find out if your TV is compatible, refer to the list below; it includes most HDCP 2.2-compatible TVs available in Canada. This list is provided for informative purposes only and may not be exact or up-to-date. For detailed information, please refer to your TV's owner manual or contact the manufacturer in question.

### TO VIEW ULTRA HD CONTENT ON YOUR TV, YOU'LL NEED:

- An Ultra HD Terminal
- An Ultra HD TV compatible with HDCP 2.2 copy protection
- A high-speed HDMI cable (category 2 or HDMI 2.0) like the one provided with your Terminal
- An HDMI cable connected to an HDCP 2.2-compatible port (some TV models only have one HDCP 2.2 port)

### TO VIEW ULTRA HD CONTENT ON YOUR TV, YOU MUST:

- Check with the manufacturer whether your TV is HDCP 2.2-compatible
- Test each of your TV's HDMI ports by connecting your Ultra HD Terminal to them
- Update your TV's software to benefit from optimal picture quality and compatibility

## HISENSE

Year	Model	Compatible ports
2015	50H7GB	HDMI 3 and 4 only
2015	65H7GB	HDMI 3 and 4 only
2015	65H7B	HDMI 3 and 4 only
2015	65H10B	HDMI 3 and 4 only
2014	55k680	None
2014	65k680	None
2014	58t680	None
